

Confetti

We ONLY allow fresh or dried petals at Gate Street Barn and do not allow paper confetti even if it is bio-degradable. Sadly bio-degradable takes an age to degrade and clogs in the meantime!

Paper & metallic confetti cannot be used anywhere even as table decoration. This type of confetti falls between the floorboards in The Barn and becomes a fire hazard. They also leave a lot of mess which is impossible to clear up before a wedding the following day.

We do have dried petals available to purchase from us at a cost of £3.00 per bag. Each bag has about 8 pinches.

Please note you may be charged for additional cleaning if any confetti other than fresh or dried petals needs to be removed. Please ensure your guests are aware of the confetti rules on their invitation as we have had a few weddings when a confetti gun has been fired by guests and the couple have had a bill for the clear up.

Thank you!
